	Elective studies						5 SP

	<p><i>The aim of the elective studies is to develop the competencies in the area of leadership and service design.</i></p> <p><i>Those students who study 90 ECTS can in their studies include one course (5 ECTS) from other Master's degree programmes at Turku University of Applied Sciences or partner universities.</i></p>						
EXA	Examensarbete						30 SP
LSD14MT	<p>Master's thesis</p> <p><i>The Master's thesis is a demanding development project or research work combining theory, praxis and creation of new knowledge. The thesis subject and aim are based on requirements and needs of working life.</i></p> <p><i>The Student</i></p> <ul style="list-style-type: none"> <i>* is able to combine theoretical framework and pragmatic work with the contextual needs in a development or research project</i> <i>* is able to network and communicate professionally with relevant organisations and communities</i> <i>* is able to evaluate critically sources and methods, select the suitable ones and use them systematically and ethically</i> <i>* is able to document, report and give a presentation of the project or research status and the final results</i> <p><i>The Master's thesis process consists of three stages.</i></p>	5	25				30 SP
LSD14MT01	<p>• Master's thesis</p> <p><i>At the first stage of the thesis objective is discussed with the supervisor, and the research project is identified and defined. The thesis project is presented at the starting seminar. After this first seminar the thesis project is evaluated.</i></p>	5					5 SP
LSD14MT02	<p>• Master's thesis</p> <p><i>At the second stage the process continues by gathering information and combining the theoretical framework and pragmatic work. A meaningful development project is based on the requirements of the working life commissions. The student is able to critically evaluate the sources and methods, select the applicable ones and to use them systematically. On the second seminar the student presents the phase of the process. The project will be processed with the seminar participants and the supervisor. The student is able to self-evaluate the process of this stage. After the second seminar the thesis project is evaluated.</i></p>		10				10 SP
LSD14MT03	<p>• Master's thesis</p> <p><i>At the third stage the student masters the methods and practices used in the branch to be able to analyse and complete the thesis. The student is able to document the final results and report the project according to good ethical principles. At the final seminar the student is capable to give a presentation as well as to publish the thesis. The main responsibility for completing the thesis lies upon the student. After the final seminar the thesis is evaluated by the supervisors.</i></p>		15				15 SP
